

JORDAN SPENCER

Sr. Software Engineer

Nationwide | August 2022 – Present

Contributed to the development of a major new public-facing sales web application, from its inception through to its public launch. Primarily worked with Angular / TypeScript, Contentful CMS, and Formly. Managed shifting goals and priorities while delivering quality contributions to the codebase, solving problems, and developing new aspects of the application including spearheading the implementation of custom validation throughout. Member of a volunteer DevSecOps group.

Associate Developer

Branch | September 2021 - July 2022

Promoted from internship program. Independently contributed to an in-production employee-facing web app by fixing bugs, adding hotfixes, and implementing new features via GitHub Projects. Full Stack Serverless: React / JavaScript, GraphQL, Apollo, AWS AppSync, Lambda, CloudFormation, DynamoDB, Stripe, Formik, Date-Fns, Lodash, Mobx-State-Tree, MaterialUI, and Yup.

Developer Intern

Branch | March 2021 - August 2021

Selected as one of three developers to participate in the launch of the company's internship program, an intensive 6 month program working directly alongside staff devs.

Curatorial Assistant

Columbus Museum of Art | September 2018 - September 2020

Served as the sole assistant to the curatorial team, handling various aspects of exhibition research, development, planning, and execution, including producing publications.

Customer Services Specialist

Columbus Metropolitan Library | October 2012 - December 2018

Working with a community often unaccustomed to or uncomfortable with technology, resume building assistance, job application navigation, finding resources outside of the library, building trust and relationships with patrons of all ages in an effort to better a community that has been largely neglected.

Education

Tech Elevator | 2020

The Ohio State University | 2013 – 2017
